

TECHNICAL DATA SHEET

MISTF

FUME SUPPRESSER FOR DECORATIVE CHROME PLATING

Mist F is an outstanding product from Sharma Chemindus Pvt Ltd. to meet the requirement of Decorative Chromium plating industries.

Mist F helps produce a thin blanket which prevents the escape of hazardous chromic acid fumes/mist from the bath. Thereby resulting in savings of chrome salt and its neutralization.

MAKE-UP :

0.75 -1 gm/lit Mist F is recommended in a fresh bath. Regular addition is to be made to make up the drag out losses. Addition depends upon the type of installation and amount of drag out of chrome solution. Approximately 0.01-0.02 gm/lit of Mist F is required for successfully suppressing the mist for 12-14 hours of working.
